ing.
Military Tournament and
races in the afternoon.
Hockey finals in the even-
ing.
Dec. 16—State departure.

(Special Cable to The Times-Dispatch.)
Delhi, India, December 6.—The elab-
orate ceremonies incident to the in-
vestiture of King George and Queen
Mary as Emperor and Empress of
India, will begin here to-morrow with
the arrival of Their Majesties from
Bombay. The royal couple will be
met at the railroad station by Lord
and Lady Hardinge, 150 Indian princes
and their gorgeous retinues, and a
royal guard of soldiers. They will be
escorted to a pavilion inside the fort,
where they will be formally presented
to the native princes.

Following this procedure Their Ma-
jesties will be taken to their quarters
on the plain of Delhi. The route will
be lined by thousands of school chil-
dren, who will strew flowers in the
King's path.
The actual ceremonies will begin to-
morrow with the state entry and
reception of the Indian chiefs, and
will continue to December 16. In
these ten days will be crowded an en-
dless number of events, including
ceremonies on a scale of unequalled
magnificence. These will be followed
by a hunting expedition which will be
conducted by the native princes, with
the King as a guest. It is estimated
that 10,000,000 have been spent in de-
corations, the mobilization of troops
and the preparation of the royal en-
campment.

Will Reach Climax.
The great celebration will reach its
height December 12, when the King
and Queen are formally invested with
the titles of Emperor and Empress
of India.

This ceremony will be witnessed by
250,000 people, while over 2,000,000 will
hear the coronation proclamation that
will re-echo in every province and
village in India through the special
representatives delegated to make the
instrument known to the populace.
The coronation will take place at
midday, in two great arenas in the
center of the encampment. The King
will adjust the crown himself, giving
the impression to his Indian subjects
that no living man is worthy of carry-
ing out this act.

After the ceremony he will be hailed

A Tonic-Stimulant

MR. H. H. WARNER.

"I have used Duffy's Pure Malt Whis-
key for years, and find it of great benefit,
both as a tonic and stimulant, and heartily
recommend it as a beneficial remedy to
all whose systems are run down."—H. H.
Warner, Winsted, Conn.

Duffy's Pure Malt Whiskey

will bring a healthy glow to the pallid
cheek, give new energy to the faltering
limbs, strengthen and invigorate the
weary body and throbbing brain and re-
animate the vital organs. It makes the
old feel young and keeps the young strong
and vigorous. Prescribed by physicians,
used in hospitals and recognized as a
family medicine everywhere. It is in-
valuable to bring restful sleep and keep
the stomach in a good, healthy condition.
You cannot afford to be without it.
Sold in SEALED BOTTLES ONLY by
all druggists, grocers and dealers, or
shipped direct for \$1.00 per large bottle.
The Duffy Malt Whiskey Co.,
Rochester, N. Y.

by the guests as Delhi-Ke-Bashah, for
the first time in Indian history. The
royal couple will then receive the
homage of the governors, chiefs and
officials and retire to the royal pavilion,
where the proclamation of the
King-Emperor will be read.
Incident to the coronation of Their
Majesties will be the first public ap-
pearance of the crown. It was
decided to leave the royal crown and
crown of England in the Tower of London and
a new crown was especially con-
structed for the Indian Durbar. This
crown has not been seen by any
save those in the royal family and
the workmen engaged in constructing
it.

The famine and widespread discon-
tent in India have necessitated a most
rigid police system to guard against
any possible harm to Their Majesties
during their stay at Delhi. Five thou-
sand police and secret service men
have been detailed to police duty. Na-
tives and all suspicious persons are
being watched closely, and the streets
are crowded with the constabulary.

Second only to the advent of Their
Majesties and their coronation on De-
cember 12 is the interest displayed in
the encampment outside the city of
Delhi. The tent city lies just west
of the famous Ridge and surrounds the
Circuit house, built by Lord Curzon
for the 1903 Durbar. The camp is five
miles square, and contains every con-
venience of a modern city. There is a
cab service, drainage system, over
twelve miles of railroad, thirty-one
post-offices and ten telegraph offices.
Here the King and Queen will occupy
two great tents till after the cere-
monies.

250,000 People Under Canvas.

During the ceremonies over 250,000
people will be under canvas, the en-
campment grounds which cover an
area of over twenty-five square miles.
Four divisions of infantry and two
divisions of cavalry have been mobil-
ized for the Durbar, and 50,000 sold-
iers in Delhi besides the es-
corts of the native princes.

Over 250,000 will be exploded in
fireworks at the nightly demonstra-
tions. At Delhi the ancient city will
be portrayed in fire at a cost for the
single piece of \$15,000. Altogether the
Delhi fireworks will cost over \$100,-
000. In Bangalore, Calcutta, Bombay
and Calcutta \$150,000 will be devoted
to this form of entertainment.

Their Majesties have brought with
them over \$1,000,000 worth of jewels
and nearly \$200,000 worth of gifts for
Indian princes, soldiers, officials,
children and the enterprising and the
poor of India. Twenty-four solid sil-
ver trumpets, costing \$100 each, will
be used to announce the reading of the
coronation proclamation, and after-
wards distributed among the princes,
peers and officials.

Every possible form of entertain-
ment will be provided for the Ma-
jesties. There will be banquets, recep-
tions, state councils, polo matches, a
grand review of troops, military
tournaments, races, a people's fair,
garden parties and the laying of
the corner-stone of the King Edward
monument, besides fireworks, feasts
and entertainments for the people in
every town in India. After the cor-
onation the King will be the guest of
the native princes in a hunting ex-
pedition whose magnitude will out-
rank any previous hunt in the his-
tory of the Indian dependency.

INCREASED YIELD IN VIRGINIA CROPS

Although Drought Reduced
Total, Production Per Acre
Has Grown.

FIGURES FOR YEAR OF 1911

Higher Prices and Better
Methods Compensate for
Unfavorable Conditions.

Although the drought of the early
part of the last summer resulted in de-
creased crops in Virginia in nearly
every line, it is apparent that the aver-
age yield per acre for most productions
has been materially increased. This is
regarded as vastly the more signifi-
cant fact, since droughts are incidental,
while improved methods of farming
are likely to be permanent.

The Irish potato crop is off more
than 50 per cent., yet the growers are
receiving prices which will net them
more money than did the crop of 1910.
This is largely true of other yields.

Year's Crop Reports

From statistics collected by the
Southern Planter, it is found that Vir-
ginia has this year produced a yield of
42 bushels of wheat per acre, as
against 31.2 bushels in 1910, and a total
crop of 9,552,000 bushels, as against
10,175,000 bushels in 1910. North Caro-
lina has produced a yield of 10.6 bush-
els of wheat per acre, as against 9.5
bushels per acre in 1910, and a total
crop of 7,157,000 bushels, as against
7,425,000 in 1910. South Carolina has
produced a yield of 11.4 bushels per
acre, as against 8.4 bushels in 1910,
and a total crop of 5,632,000 bushels,
as against 4,854,000 bushels in 1910. Mary-
land has produced a yield of 15.5 bush-
els per acre, as against 14.5 bushels in
1910, and a total crop of 12,322,000
bushels, as against 13,516,000 bushels
in 1910.

Of corn, Virginia has produced a
yield of 3,500,000 bushels, North Caro-
lina has produced 3,162,000 bushels,
South Carolina has produced 4,500,000
bushels, and Maryland has produced
760,000 bushels.
Of oats, Virginia has produced a
yield of 24 bushels per acre, and a
total crop of 51,408,000 bushels, as
against 24,621,000 bushels in 1910;
North Carolina has produced a yield of
18.2 bushels per acre, and a total crop
of 5,521,000 bushels, as against
5,139,000 bushels in 1910. South Caro-
lina has produced a yield of 18.1 bush-
els per acre, and a total crop of 45,-
522,000 bushels, as against 41,732,000
bushels in 1910, and Maryland has pro-
duced a yield of 35.5 bushels per acre,
and a total crop of 1,000,000 bushels,
as against 23,755,000 bushels in 1910.

Tobacco Very Short.

Of tobacco, Virginia has produced a
crop of 99,810,000 pounds, as against
124,800,000 pounds last year. The yield
per acre is 860 pounds, as against 750
pounds last year. North Carolina has
produced 104,295,000 pounds, as against
129,000,000 pounds last year, the yield
per acre being 690 pounds, as against
620 pounds last year. South Carolina
has produced a crop of 12,150,000
pounds, as against 15,900,000 pounds
last year. The yield per acre is 819
pounds, as against 620 pounds last year.
Maryland has produced a crop of
16,755,000 pounds, as against 16,-
655,000 pounds last year. The yield
per acre is 735 pounds, as against 690
pounds last year. The total tobacco
crop of the country is put at 290,662,000
pounds, as against a total crop last
year of 384,210,000 pounds.

The Irish potato crop of Virginia is
put at 2,612,000 bushels, as against
2,556,000 bushels last year. North
Carolina produced 1,152,000 bushels,
as against 2,314,000 last year. The total
crop of the country is put at 281,735,000
bushels, as against 338,811,000 bushels
last year.
From the above figures, it will be
seen that all the staple crops are mat-
terially less than those of last year,
and this condition is reflected in the
market prices, which on November 1
were all substantially higher than on
the same date a year ago. The tobacco
market has opened with much higher
prices than a year ago, and the opin-
ion of the leading buyers is that these
prices are more likely to advance than
to recede. The quality of this crop is
generally very good, and of a type
much desired by manufacturers.

Elba Council Elects Officers.

Elba Council, No. 606, Royal Arcan-
um, at a meeting held Tuesday night,
elected the following officers to serve
during the ensuing year: W. P. Sale,
regent; W. J. Tyler, vice-regent; A. L.
Johnson, orator; John J. Mitchell, past
regent; C. W. Tyler, secretary; William
Galloway, collector; C. E. Richardson,
treasurer; John E. Tyree, chaplain;
James H. Angle, guide; Nicholas Had-
dock, warden; M. Bosquet, sentry.

W. P. Sale, with James B. Angle as

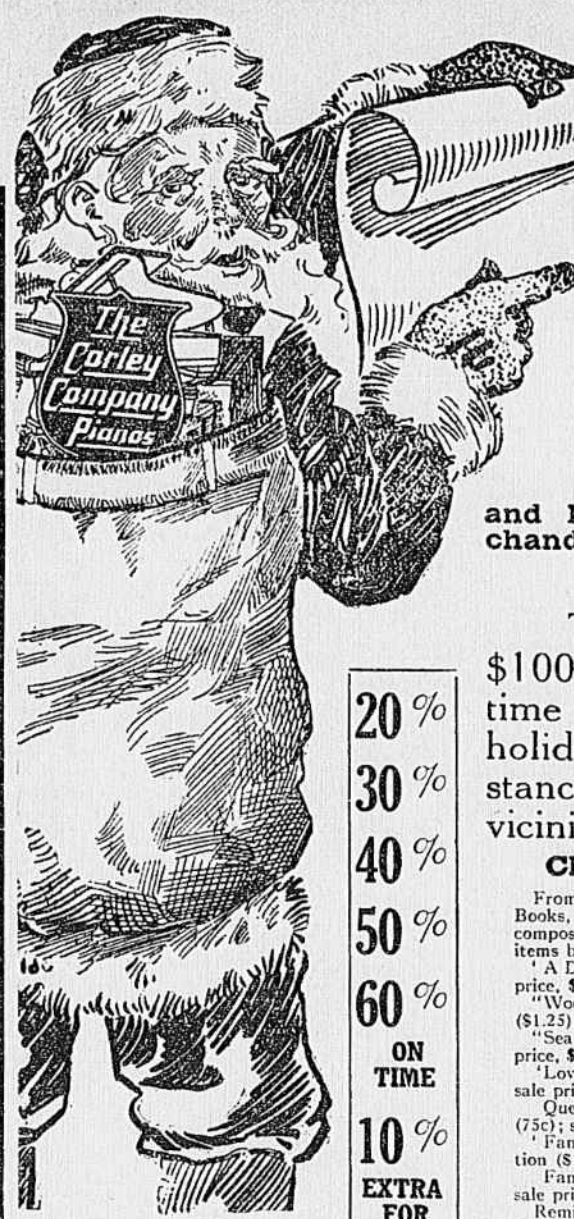

alternate, was chosen to represent the
organization in the Grand Council.
John H. Tyler, Phil Meisel, Jr., and
S. A. Pulliam were elected trustees.

Judgment Entered.
Judgment was entered yesterday in the
Lord and Esquire in the case of Mal-
vina Gaines against Harry Grimes in the
sum of \$600.

ENTOMOLOGISTS ARE ORGANIZED

Most Important Change in Gen-
eral Agreement of 1892
Is Made.

Atlanta, Ga., December 6.—Entomol-
ogists of Southern States who are at-
tending the Southern Corn Show here
to-day formed a permanent organiza-
tion, to be known as the Association
of Southern States' Entomologists. Dr.
W. E. Hinds, of Alabama, was elected
president, and A. F. Conrad, of South
Carolina, secretary.

Lint cotton has been removed from
the quarantine by the entomologists.
This is regarded as probably the most
important change in the general agree-
ment which was first entered into
among Southern entomologists in 1892.
The association also recommended the
creation of a zone of twenty miles
outside of the known territory infested
by boll weevil for quarantine, and that
the forms of affidavits and certificates
now used in Alabama be adopted in all
the States concerned.

It also was recommended that in
case of a sporadic infestation in ter-
ritory not reasonably expecting the
boll weevil for two years or more that
the government Board of Entomology
be notified, and the State should lend
its co-operation to the government.

One of the principal objects of the
organization is to secure uniformity
of State laws in the South with regard
to the fields of work, particularly in
respect to checking the advance of the
boll weevil toward the Atlantic coast.

CHARTERS GRANTED

Ellett Mercantile Company (Inc.), Ellett,
Va. J. V. Vass, president; L. D. Blair, vice-
president; G. M. Voss, secretary and treas-
urer; all of Galax, Va. Capital: Maximum,
\$20,000; minimum, \$5,000. Object: Mercan-
tile business.
Amendment was issued to the charter of

To Discard Aged or Weather-Soiled Skin

(From Home Queen.)
To free your skin of chaps, blotches,
roughness, muddiness, sallowness, or any
cutaneous difficulty, the best thing to do
is to free yourself of the skin itself. This
is easily accomplished by the use of ordi-
nary mercurized wax. Use at night as
you use cold cream, washing it off next
morning. Immediately the offending
surface skin begins to come off in fine
powder-like particles. Gradually the
entire cuticle is absorbed in this way,
causing no pain or inconvenience. Nor
does the face exhibit any evidence of the
use of this treatment. The second layer
of skin now in evidence presents a spark-
ling beauty and youthful robustness ob-
tainable in no other way we have ever
heard of.
This mercurized wax, which can be had
at any drug store, we know has been
successfully used for permanent removal
of blackheads, freckles, moth patches and
liver spots.

COUNCIL TO-NIGHT

Will Consider Increases of Pay—Committees
Scheduled.

The Common Council will meet in called
session to-night at 8 o'clock. The entire
session on Monday night was given over to
a discussion of the plan for changing the
form of city government, none of the regu-
lar committee reports being taken up.
There is therefore no large volume of busi-
ness to come before the body to-night,
mainly of a routine nature. Objects of spe-
cial discussion will be a resolution from
the Ordinance, Charter and Reform Com-
